Crystal Clear and Ultimate Privacy Cast Glass Flooring

Artwork in Architectural Glass (AAG) is proud to announce their new Crystal Clear and Ultimate Privacy UL approved cast glass flooring. AAG cast glass flooring is UL approved in accordance with UL 410, standard for slip resistance of Floor Surface Materials. It provides ultimate "daylighting" while maintaining an individual's modesty - privacy is not a concern. The large panel sizes and anti-slip textures provide no interruption to the line of sight. Stair treads, landings, walkways, bridges, and more. Anti-slip glass flooring is now possible while providing the safety, privacy and light transmission not available before.
